

**1. New Event Management
Across New Bridge**

**2. Value gain in the AADLC
Technology Transition
Partnership**

- 
- Need to have total management of available BW
 - Use of directory for AADLC with access control
 - To submit a schedule one week in advance
 - Scheduling VC should be confirmed by principal staff of the centre
 - Directors, TCs, ITs, AA and Accountants should have access to the new event management across new bridge

- 
- Access to all AADLC activities
 - Simplification of data while creating an event
 - Scheduling event in outlook should enable an input in the new system
 - Copy the scheduling functions in GEM
 - Generation of invoices should be available
 - Provide an alternative if the system fails, invoices should be generated and attached to an email

- 
- Train accountants to use the new system
 - Need a coordinator team to manage the bridge in case of troubleshooting
 - In case of an event cancelation, the new system should not connect the concerning centre
